

O.1 Map of the Monitoring Area, Vantage Points for Observation of Active Night Roosts and Noise Monitoring Stations

O.2 Survey Photos

O.2.1 Pre-roosting Aggregate

Appendix O.2.1a: Pre-roost aggregate of Chinese Pond Heron *Ardeola bacchus* in the mudflat area east of the Project boundary observed on 21 September 2023 around 18:02

Appendix O.2.1b: Pre-roost aggregate of Chinese Pond Heron *Ardeola bacchus* in the mudflat area of the Project boundary observed on 21 September 2023 around 18:10

O.2.2 Active Night Roosting Site and Roosting Substrates

Appendix O.2.2a: Active night roost of Chinese Pond Heron *Ardeola bacchus* located northeast of the Project boundary observed on f the Project boundary observed on 21 September 2023 around 18:10.

Appendix O.2.2b: Active night roost on *Sonneratia apetala* and *S. caseolaris* mangrove roosting substrate located northeast of the Project boundary observed on 21 September 2023 around 18:20.
