

**O.1 Map of the Monitoring Area, Vantage Points for Observation of Active Night Roosts and Noise Monitoring Stations**

Appendix O.1: Monitoring Area, Vantage Points for Observation of Active Night Roosts and Noise Monitoring Stations

## O.2 Survey Photos

### O.2.1 Pre-roosting Aggregate

Appendix O.2.1a: Pre-roost aggregate of Chinese Pond Heron *Ardeola bacchus* and Intermediate Egret *Egretta intermedia* in the mudflat area east of the Project boundary observed on 18 March 2022 around 17:35

Appendix O.2.1b: Pre-roost aggregate of Intermediate Egret *Egretta intermedia* and Little Egret *Egretta garzetta* in the mudflat area northeast of the Project boundary observed on 18 March 2022 around 17:35

## O.2.2 Active Night Roosting Site and Roosting Substrates

Appendix O.2.2a: Active night roost on *Sonneratia apetala* and *S. caseolaris* mangrove roosting substrate located east of the Project boundary observed on 18 March 2022 around 18:15

Appendix O.2.2b: Active night roost on *Sonneratia apetala* and *S. caseolaris* mangrove roosting substrate located northeast of the Project boundary observed on 18 March 2022 around 18:15
